

Preschool – 4 Year Old Curriculum Guide

Because young children learn best through manipulation of materials and hands-on activities, we believe academic learning at this age should be playful and exploratory. That's why learning centers make up the biggest portion of our daily schedule. The centers change and rotate on a daily basis and include construction, dramatic play, art, phonics, science, and math.

**There are two options for the Pre-4 Program:
Four day (Mon.–Thurs.) or five day (Mon.-Fri.) classes
from 8:00 am – 12:00 pm**

Bible

Daily Bible lessons help children begin to understand God's amazing power and His unconditional love for each of them. The Pre-4 Bible curriculum includes Bible songs, verses and stories.

Reading Readiness

Phonological awareness (songs, poems, rhymes, letter recognition) helps to lay the groundwork for future strong readers. The Pre-4 students are introduced to vowels, blends, and sounding out one-vowel words. Teachers use a variety of resources to reinforce letter names and sounds.

Math

Hands-on activities in the Houghton Mifflin Pre-K Math curriculum create a solid foundation for mathematical learning. These activities explore two and three-dimensional shapes, sorting, graphing, counting, and patterning.

Science

- Seasons
- Weather
- Healthy Bodies
- The Five Senses
- Animals
- Growing Things
- The Rainforest
- The Ocean

Social Studies

- My Family
- My Neighborhood
- The Farm
- Good Citizenship
- Community Helpers
- Holidays and Celebration

Enrichment Classes

- Art
- Music
- Media Center
- Spanish
- P.E.

In-House Field Trips*

- Alpharetta Fire Department
- Dr. of Fun
- Petting Zoo

Service Project

North Fulton Community Charities

**Vary from year to year*
